Read Before Ordering

Be sure to give your Zip Code Number

To be sure of getting your plants while you are here we should have your order in advance of your coming so we can have them ready for you, as we may not be able to dig the stock while you are here.

NOT OPEN ON SUNDAYS AND SATURDAYS.

THESE PRICES are in effect Fall 1968, Spring 1969.

All previous prices cancelled.

ALL OUR STOCK is fresh dug for each order. None of it is in storage.

PRICES named in this Trade List apply only to orders placed by nurserymen, florists, and dealers. Maryland customers are subject to 3% sales tax or send your License Number. All delivery costs are to be paid by purchaser.

PACKING. Boxes and bales will be charged costs of material and labor used. We will add this cost to your invoice. This cost applies whether you remit with order or buy on time terms.

CLAIMS, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company. Claims not made within ten days cannot be honored.

TERMS. Net, no discount or net 30 days from date of shipment to those of known responsibility but must have satisfactory business references from others or remittance must accompany order. Those desiring stock shipped C.O.D. will please remit one-fourth the amount of their purchase when ordering. Other terms by special arrangement. 1% per month interest will be charged if not paid when due.

NON-WARRANTY. We give no warranty, expressed or implied, the purchaser assuming all risk and responsibility of transportation, growth, planting, life of stock or any other matter on any stock we sell. We send out good stock, carefully grown and packed but cannot control conditions after it leaves our care. We exercise the greatest care to keep our stock true to name and are willing to replace on proper proof any stock that may prove otherwise, or refund the amount paid us for such stock, but it is mutually agreed that we shall not at any time be liable for any greater amount.

TELL US HOW TO SHIP, whether by express or parcel post. It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or condition of delivery and our responsibility ceases upon our delivery to the transportation company. We cannot ship by railway freight.

HARDINESS OF PLANTS. When hardiness of plants is mentioned herein it applies to this section.

TIME OF SHIPMENT. We ship most every week in the year with the possible exception of during the winter when bad weather makes it impossible. Of course, there is a regular season for shipping the different plants, but if you want them out of season and are willing to take the risk of good delivery, we will pack with the utmost care and get them off to you at most any time you want them. Risky shipping in hot summer.

PLAN TO VISIT OUR NURSERY

We will certainly be glad to have you come to see our stock for yourself. We believe you will find it compares favorably with that grown by other nurseries. We are on the Eastern Shore of Maryland, 100 miles south of Wilmington, Delaware, 100 miles from Chesapeake Bay bridge and tunnel via Norfolk, Va., 90 miles from Annapolis, Md., via Chesapeake Bay Bridge, 150 miles from Baltimore, Md., via Elkton, Md., 225 miles from New York, N.Y. We are on U.S. Route 50, 10 miles east of Salisbury, Maryland, on the Delmarva Eastern Shore.

AZALEAS

Sizes of azaleas are as follows: 2 in. pot plants are a rooted cutting grown in the pot one season, 2 yr. size grown one year in pot and one year in field beds, 3 yr. size have been grown in pot one year and field beds two years and 4 yr. size grown in pot one year and field bed three years.

KURUME AZALEAS

The Kurume Azaleas are one of the most showy of all flowers for the garden. They are also well adapted to forcing—thousands of them being sold for Easter, Mother's Day, and Decoration Day. They are comparatively easy to grow and make such a wonderful display that the demand is constantly increasing. Many of the varieties are hardy out-of-doors as far north as Long Island. They are extremely floriferous, and in season, the blossoms completely cover the plants. The colors are almost every hue and shade except yellow, as you will find below.

We will furnish one to five plants of a variety and size at each rate; five to 25 of a variety and size at the ten rate; 25 or more of a variety and size at the 100 rate.

If a variety is listed at 10 rate and not each rate there will be an additional charge of 15 cents per plant if less than 5 are ordered.

Items marked by an asterisk (*) are classed as Lining-Out stock.

GABLE'S HARDIER AZALEAS

Mr. Joseph B. Gable of Pennsylvania has spent almost a lifetime working with Azaleas and Rhododendrons. Many years ago he started breeding azaleas with the hopes of producing a hardier type of evergreen azalea in a good color range than then available. He has had wonderful success and is now recognized as the leader in this field.

As to hardiness: these varieties will average hardier than Hinodegiri and Amoena and much hardier than the other Kurumes. All have lived and flowered in the open field where they have withstood temperatures of twenty below zero and more in the past few winters with only negligible injury to a few. Most of them were uninjured.

If a variety is listed at 10 rate and not each rate there will be an additional charge of 15 cents per plant if less than 5 are ordered.

Items marked by an asterisk (*) are classed as Lining-Out stock.

U.S.D.A. AZALEAS

Some years ago the U.S. Dept. of Agriculture introduced a collection of Azaleas mostly from Japan. We have been growing these Azaleas many years and have selected the following varieties as the best ones in this collection. They are well worth trying.

BENI KIRISHIMA. Old rose, semi-double.			
* 2 yr. field beds XX trans.	$4.00	$30.00	
* 4 yr. field beds XX trans.	6.00	50.00	

DEERFIELD AZALEAS

The following Azaleas were bred with the hope of getting hardier evergreen types. While we do not know how hardy they really are, we are offering them for your own testing.

NOME (Double Hinomayo). Hardy. Medium size. Pink.		
3 yr. field beds XX trans.	$5.00	$40.00
12 to 15 in. B&B $2.50	22.50	
15 to 18 in. B&B 3.00	27.50	
18 to 24 in. B&B 4.00	35.00	
24 to 30 in. B&B 5.00	45.00	

VUYKIANA AZALEAS

A new race of large flowered Japanese Azaleas, produced by crossing hardy Azalea Malvatica hybrids with Azalea Mollis. Sturdy growers, prolific bloomers. From the information we have they are much hardier than the Kurume Azaleas. Flowers range from 2 to 2½ inches. All bloom late midseason. Plants grow tall.

BEETHOVEN. Large mauve.		
4 yr. field beds XX trans.	$6.00	$50.00
JOSEPH HAYDEN. Reddish violet; single.		
4 yr. field beds XX trans.	$6.00	$50.00
JOHANN STRAUSS. Single, rose flowers, blotched.		
4 yr. field beds XX trans.	$6.00	$50.00
PALESTRINA. We are recommending this to use in place of Ledifolia Alba for a tall growing whitebloomer. Last season when Ledifolia Alba were both bud and bloom killed, Palestrina came through without any wood damage and plenty of white flowers. Try it for a hardier tall white.		
2 yr. field beds XX trans.	$4.00	$30.00
12 to 15 in. B&B $2.50	22.50	
15 to 18 in. B&B 3.00	27.50	
18 to 24 in. B&B 4.00	37.50	
24 to 30 in. B&B 5.00	45.00	

BELTSVILLE AZALEAS

Here is a group of Azaleas originated at the Plant Industry Station of the U.S. Department of Agriculture at Beltsville, Md. These are mostly good greenhouse flowering varieties as well as being hardy in colder sections. The descriptions of the named varieties are from descriptions furnished by the U.S. Department of Agriculture.

GUY YERKES. Salmon-pink, hose-in-hose. Very attractive.		
2 in. pot plants	$2.50	$17.50
2 yr. field beds XX trans.	4.00	30.00
12 to 15 in. B&B $2.50	22.50	
15 to 18 in. B&B 3.00	27.50	
POLAR BEAR. White. Good for forcing and outdoors.		
2 yr. field beds XX trans.	$4.00	$30.00
15 to 18 in. B&B $3.00	27.50	
18 to 24 in. B&B 4.00	35.00	
24 to 30 in. B&B 5.00	45.00	

During the summer months we are pleased for visitors to see our nurseries but during the digging season from September to July we cannot give callers the attention we would like. During the main digging season, if a customer takes the time of a foreman, it can mean that in his absence several helpers are idle and orders promised for the next few days cannot be handled. Therefore, we urge you to send your orders in to us several days in advance so we may have them ready for you.

KAEMPFERI HYBRID AZALEAS

In these new Kaempferi Hybirds—the result of crossing Kaempferi and Malvatica—there has been obtained the hardiest type of evergreen Azalea, with a good range of form and color in the flowers so far achieved. Several years' tests have demonstrated that these new Hybrids are just as hardy as Kaempferi, until now the hardiest of the evergreen sorts. In connection with these Hybrids we suggest you try out the New Gable varieties.

AS GOOD AS CAN BE GROWN

We are exerting effort to produce the very best stock that can be grown, and in our fifty-seven years' experience we believe we have never offered bigger values than we are offering this season. Even with the short supply of Lining-Out stock we have kept out prices at a low level. We feel sure you will be more pleased with the stock we send you if you give us your order.

We try to secure our propagating wood from only the very best type of plants, and by doing this we can furnish you stock that should be of the best that it is possible for you to get anywhere, regardless of price.

NOT OPEN ON SUNDAYS AND SATURDAYS.

This may save you a trip. Don't take a chance but contact us before coming or sending for a load unless your order has previously been received and acknowledged for a certain date.

THE MEDIA HYBRID DAY LILIES

In these Media hybrids we have all the latest colors in red, maroon, mahogany, pink, rose and a few yellows produced by one of the leading Hemerocalis breeders. They are mixed but you are bound to get a variety in each hundred lot. We have several thousand we are offering at $15.00 per 100 or $125.00 per 1000. A very unusual bargain offer.

BACK ACRE AZALEAS

By Morrison

These azaleas are the first of the seedlings grown on personally, with a breeding program that is an extension of one phase of the original Glenn Dale work. They are not Glenn Dales, but are more closely related to the Satsuki group from Japan.

The breeding program centered and still centers on the production of double flowers that will be hardy for outside work, and in as wide a range of kinds that have white or nearly white centers and colored margins. The doubles are represented in this offering but only a few of those to come. The white or light centered kinds are a mere sample of the range to be available shortly.

These kinds are from parents that are perfectly cold hardy in Washington, D.C. and plants have been tested safely in that area, in Memphis, Tenn., and in the general Atlanta area. In extremely cold winters there was some loss of flower buds.

The usual variation in degree of doubling may be expected on newly set plants, and the variations in light centers will vary considerably until the plants are old enough to have many, small, blooming shoots.

Prices Back Acre Azaleas	Each	10	100	1000
4 yr. field beds		$8.50	$75.00	

We will furnish one to five plants of a variety and size at each rate; five to 25 of a variety and size at the ten rate; 25 or more of a variety and size at the 100 rate. XX trans.

BOURDON. Early flowering, double, purple, semi-evergreen to evergreen. Some tendency to autumn bloom. 4 yr.

CAYENNE. Early flowering, double. Rose Doree, the unopened buds almost carmine. Semi-evergreen to evergreen. 4 yr.

CORA BRANDT. This is the best double for form, almost like a Belgian frilled on edges; Scarlet Red. Very late. A ten year old plant about 30 in. tall, has as much spread. 4 yr.

CORINNE MURRAH. White eye, edged with pale rose pink, very flat flower, and usually stable in having the eye. 4 yr.

DEBONAIR. Flowers usually about 2 inches. White flushed with La France Pink from the edges inward. A very few dots on the upper lobe. 4 yr.

ELISE NORFLEET. Flowers pinkish double 2 to 2½ inches with white center edged with a hue between Rose Doree and Scarlet. 4 yr.

FRIENDSHIP. Evergreen. Midseason to late midseason. Single. Rose color. Dots a little darker showing an intensification color. Striking in mass. 4 yr.

HEARTHGLOW. Evergreen. Late flowering, double 3 to 3½ in. Rose Doree flowers flushed from center with scarlet. 4 yr.

MARGARET DOUGLAS. 2 to 2½ in. flowers. La France centers, margins Rose Doree. Some dots in the blotch area of Tyrian Rose. Some flowers will be selfs. 4 yr.

MARIAN LEE. 2½ inch flowers. Pale rose pink center edged with nopal red with white eyes. The flower is flatter than some. 4 yr.

MISS JANE. Evergreen, late flowering, double. Center of flowers irregularly near white; border pink. Grows as broad as tall. 3 yr. Add 50 cents each to above prices.

MISTY PLUM. Evergreen; late midseason; single. Margins purple, irregular white center with dots of purple on white. Large. 4 yr.

PAT KRAFT. Dr. Morrison says "this is a honey." Very large 2½ to 3 inches dark red. Very late, dark foliage. A 10-year old plant now not over 2½ feet tall. 4 yr.

SAINT JAMES. Three inch flowers. Rose Doree which carries as a salmon pink. When the plants are mature they usually come with a starry white center. 4 yr.

STORMCLOUD. Evergreen; late flowering. Mallow purple with a blotch of aster purple dots. 10 yr. plant about 4 ft. and as broad as tall 4 yr.

TARGET. About 2 to 3 inches across. Single, pure red with small rounded dark green foliage. 4 yr.

THARON PERKINS. 2½ to 2¾ inch flowers. Early. Geranium-Pink dotted with Tyrian Rose. Maximum height probably 3 ft. 4 yr.

WHITEJADE. 2 in. flowers smooth edges, pure white, green in center. This is a superb white. 4 yr.

These Back Acre Azaleas by Morrison are creating much interest in the new Azaleas now.

SATSUKI HYBRID AZALEAS

We are not sure of the parentage or classification of these Azaleas. Mostly Japanese names and it is easy to misspell them by sound. Will appreciate it if you can help us make the corrections. Many of these varieties we only have a few of, some we have in hundred lots or more. We are still trying to get descriptions of the varieties we are not describing and hope to have it in a future issue. Besides the ones we are offering we have many others in small quantities we are still testing for hardiness and desirability.

A new group from the Chugai Nursery Co. near Osaka, Japan. These are late flowering. Flowers are usually variegated, white or pink ground with red, lilac or purple stripes, white base with colored margin, or purple with white variegation and edge. These need more and wider trial before we can recommend planting in exposed or colder sections.

Many of the varigated sorts will vary in color on the same plant. This is especially true on the Satsuki and Back Acre varieties.

The following descriptions were furnished us by The Chugai Nursery Company.

GLENN DALE AZALEAS

We began growing these Glenn Dale Azaleas in 1941. During the past few years, since they are becoming better known, the demand has increased rapidly. Most all the reports we get from the growers are very enthusiastic. They are doing well in some sections where the evergreen varieties were not supposed to grow.

Many who have seen our fields of these Glenn Dale Azaleas in bloom expressed their amazement and joy at their size, coloring and quantity of bloom. You folks who have been dealing with us for the past many years know we do not recommend a plant unless we really believe in it. We do suggest you try some of these Glenn Dale varieties if you can grow any of the other evergreen azaleas and while you may have some disappointments we feel sure you will be greatly pleased with their growth and beauty.

These one-like descriptions do not tell you much but we do have a special booklet that describes them much more fully. Sent on request—no charge.

Sometimes when Azalea flowers are described as striped or flaked on white they will appear as a solid color. When this occurs the branch should be cut out. This seems inherent with the variety—not any fault of the nurseryman.

Capital Letters after variety name indicate sizes available in that variety as capital B means 2 in. pot plant size, capital C means 2 yr. field beds XX trans., and so-on. We hope you will understand this system of indicating sizes as it saves a lot of space in catalog. We have been using this system for Crabapples several years and it seems to be working fine.

We will furnish one to five plants of a variety and size at each rate; five to 25 of a variety and size at the ten rate; 25 or more of a variety and size at the 100 rate.

Azaleas will grow in full sun or in shade. In the sun you will have brighter colors and growth will be shorter. We prefer a little shade if convenient. The small pot-grown plants should be planted about ten or twelve inches apart in a prepared bed consisting of about equal parts of good acid soil and peat moss or rotten leaf-mold, with about one-half shade.

Azaleas like acid soil with plenty of peat moss or leaf-mold in it. As a fertilizer rotten cow manure, cotton-seed meal and tankage are good. Use this in early spring and keep well mulched with peat moss or leaf-mold and keep the plants well watered during dry weather.

For scale and red spider use Malathion.

If your soil is not acid enough we suggest you use Aluminum Sulphate or Sulphur.

THE RARE FRANKLINIA

Each twig develops at its tip a cluster of buds of graduated size, like overgrown greenish pearls. Early in August the largest of these attain the size of marbles. Then the guard petal folds back, still retaining its firm spherical form. From this shelter emerges four other petals, satiny, snowy white, elaborately frilled and pleated. The snowy, frilly chalice, three inches in diameter, holds a sumptuous mass of orange-gold stamens and breathes forth a delicate, balmy fragrance.

Each flower lasts two or three days and then drops cleanly. There is a constant succession of blooms till hard frost. We frequently get the unusual effect of a tree clad in crimson, autumn foliage and abundantly starred with white flowers.

The Franklinia begins blooming when not more than 3 or 4 feet high. Young trees under favorable conditions increase in height a foot or more each season. Specimens 30 feet high are known. It develops naturally with several trunks, but may easily be trained to a single trunk by removing the sprouts which start from the base.

Franklinia prefers full sun, has proved entirely hardy about New York and hardy in favorable locations about Boston, Mass., and in Ohio.

We have found the Franklinia does much better if it has plenty of moisture at planting time. See color picture second cover page.

HOLLY (Ilex)

For many years we have been urging nurserymen to grow more holly. Fifteen years ago there was not very much demand for holly. If you will refer to our catalogs about that time and since, you will find we said, "The nurseryman who will grow a collection of Hollies to a specimen size will have something he can sell, whether times are good or whether they are bad. There is always a demand for them, and there will be as long as any other plants will sell."

AQUIFOLIA ALTACLARENSIS. Bright green leaves with fairly regular teeth. Fruit red and good size.

3 to 4 ft. B&B	$5.00		
4 to 5 ft. B&B	6.00		

AQUIFOLIA TEUFIL'S ZERO. Mr. Teufil told us this was one of his hardiest ones and a good commercial cut variety. Branches weep or droop.

3 in. pot plants 2 yr.		$5.00	$40.00
2 to 3 ft. B&B	$5.00		

CILIOSPINOSA MASCULA. Same as above except male.

3 in. pot plants 2 yr.		$6.00	$50.00

CORNUTA BUFORDI. Another form of Cornuta, but spikes on the leaves are not so prominent and it is more hardy than the type. Berry-bearing.

3 in. pot plants 2 yr.		$4.50	$35.00

CORNUTA DWARF. Slower growing than Rotunda.

3 in. pot plants 1 yr.		$5.00	$45.00
3 in. pot plants 2 yr.		7.50	60.00

CORNUTA FEMINA (Chinese Holly). A berry-bearing form of Cornuta. Compact pyramidal grower. Leaves dark glossy green, oblong, with 3 strong spikes at the dilated apex, and 1 or 2 on each side; scarlet berries. One of the showiest.

3 in. pot plants 2 yr.		$5.00	$40.00

CORNUTA John T. Morris. One of the newer varieties by the National Arboretum.

3 in. pot plants 2 yr.		$7.50	$60.00

CORNUTA LYDIA MORRIS. Another new one by the National Arboretum. Both look good.

3 in. pot plants 2 yr.		$7.50	$60.00

CORNUTA MALE. A male form of Cornuta.

3 in. pot plants 2 yr.		$5.00	$40.00

2 in. pot plants 2 yr.		3.00	25.00

CRENATA FUKASAWANA

6 to 8 in. trans.		$5.00	$40.00

During the summer months we are pleased for visitors to see our nurseries but during the digging season from September to July we cannot give callers the attention we would like. During the main digging season, if a customer takes the time of a foreman, it can mean that in his absence several helpers are idle and orders promised for the next few days cannot be handled. Therefore, we urge you to send your orders in to us several days in advance so we may have them ready for you.

	Each	10	100	1000

CRENATA GLASS. Very upright branchy Holly with very small shiny dark green leaves. Growth is decidedly erect, yet the many lateral or side shoots fill out the plant so that it is fairly compact. Very neat. Evergreen. Male.

* 4 to 6 in. trans.		$2.50	$20.00	
* 6 to 8 in. trans.		3.00	25.00

4 to 5 ft. B&B	4.50	40.00		

CRENATA "GREEN CUSHION." Shrub flat, spreading. At 10 years 8 in. with top 30 to 32 in. wide. Leaf blades stiff, dark green, small to very small. Twigs small, light green or slightly tinted with purplish brown. Especially attractive because of its solid cushion-like form.

* 2 in. pot plants 1 yr.	$2.50	$20.00	$175.00
* 2 in. pot plants 2 yr.	3.00	25.00	200.00

CRENATA HELLERI. Very compact low growing—foliage is so thick and dense you can hardly put your finger through it—very small leaves. We consider this to be one of the best novelties recently introduced.

* 2 in. pot plants 1 yr.		$2.50	$20.00	$175.00
* 2 in pot plants 2 yr.		3.00	25.00	200.00

MALUS — FLOWERING CRABS

The Flowering Crabs are among the most charming of spring trees. They are not only beautiful when in blossom but many carry most ornamental and richly-colored fruit in the autumn. Most of the Crab family form graceful garden trees of medium size. They are quite hardy and require no particular cultivation, thriving best in a good loam and full sunshine.

We have larger trees of most of these varieties. Prices on receipt of your want list.

TAXUS (Yew)

The Taxus are undoubtedly the most popular and useful of all the ornamental evergreens. We have been growing them extensively a good many years and the demand keeps increasing.

We honestly believe you will do well to plant and grow on some of these Yews.

Baccata repandens (Spreading English Yew). A low form with wide spreading branches and dull bluish green, narrower and longer leaves, partly falcately curved upward. Hardy in New England and one of the best spreading types. Nobody seems to have enough of these the past few years.			
* 2¼ in. pot plants 2 yr.		$3.50	$30.00
* 4 to 6 in. trans.		3.00	25.00
Chinensis (Chinese Yew). Very handsome with its large rich light green leaves. Branches spreading. Attractive.			
* 6 to 8 in. trans.		$3.00	$25.00

During the summer months we are pleased for visitors to see our nurseries but during the digging season from September to July we **cannot** give callers the attention we would like. During the main digging season, if a customer takes the time of a foreman, it can mean that in his absence several helpers are idle and orders promised for the next few days cannot be handled. Therefore, we urge you to send your orders in to us several days in advance so we may have them ready for you.

Media Hunnewelliana. A natural cross between the Japanese and American Yews. An intermediate between the parents in habit of growth, color of foliage and in general appearance. Hardy, but in winter the clear green of its foliage is masked by a yellowish-bronze pigment.

4 to 6 in. trans.		$2.50	$20.00
18 to 24 in. B&B	$4.00	35.00	

Media Kelseyi. Begins bearing berries even on small plants. Fairly slow grower; dark green, dense needles of the Nana type. Upright bush. Larger sizes literally infested with bright red fruits. We never grow enough to supply the demand. This and Jeffrey's Pyramidal are very similar.

* 4 to 6 in. trans.		$2.50	$20.00

MORE HATFIELD YEWS

The following varieties were grown from stock purchased from the late T. D. Hatfield. He selected these as being the best of his unnamed varieties and we are still carrying them under his original numbers. We are giving brief descriptions.

Hatfield No. 6. Somewhat like No. 8 in growth but twigs are not as heavy; leaves narrow. Very graceful.			
12 to 15 in. trans.		$5.00	$45.00
15 to 18 in. B&B	$3.00	27.50	
18 to 24 in. B&B	4.00	37.50	
Hatfield No. 7. Bright glossy green, heavy foliage; long needles. A low growing spreading type. Berry bearing. This one sells itself when seen.			
12 to 15 in. trans.		$4.50	$40.00
24 to 30 in. B&B	$5.00	45.00	
30 to 36 in. B&B	6.00	55.00	
Hatfield No. 8. Slow growing; very compact. Foliage bright green. Resembling Cuspidata Nana. Heavy fruiting type.			
15 to 18 in. B&B	$3.00	$27.50	
18 to 24 in. B&B	4.00	37.50	
24 to 30 in. B&B	5.00	45.00	
Hatfield No. 18. Similar in growth to **Taxus cuspidata.** Foliage a shade lighter making it wonderfully attractive. Probably the most rapid grower of all the low types of Taxus. However, it can be kept compact with a little shearing. If you want a good, quick grower, yet one having the good qualities of Cuspidata.			
* 6 to 8 in. trans.		$3.00	$20.00	
* 8 to 10 in. trans.		3.50	25.00

15 to 18 in. B&B	$3.50	30.00	
18 to 24 in. B&B	4.00	35.00	

CEPHALOTAXUS (Plum Yew)

CEPHALOTAXUS PEDUNCULATA FASTIGIATA (Harrington Plum-Yew). This plant grows almost exactly like a fine type of the Irish Yew, forming a tall, narrow, compact dark green column with thick, narrow leaves 2 inches long. Very nice.			
6 to 8 in. trans.		$4.00	$30.00
15 to 18 in. B&B	$3.50	30.00	
18 to 24 in. B&B	4.25	40.00	

AUNT MARY'S SWEET CORN

The Sweet Corn Supreme

This is the most wonderful Sweet Corn we have ever grown. One grower describes it as "the best Sweet Corn in the world."

Has the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artificial heat to cure it for seed purposes.

Aunt Mary's Corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the Corn-loving public than most any other variety and that appeal continues long after you are tired of other Sweet Corns.

Liberal size packets, 35c each; 3 for $1.00, postpaid.

$2.00 per pound, postpaid.

If after growing this wonderful Sweet Corn you are not entirely satisfied, we will refund every cent you paid us for it.

Azaleas will grow in full sun or in shade. In the sun you will have brighter colors and growth will be shorter. We prefer a little shade if convenient. The small pot-grown plants should be planted about ten or twelve inches apart in a prepared bed consisting of about equal parts of good acid soil and peat moss or rotten leaf-mold, with about one-half shade.

Azaleas like acid soil with plenty of peat moss or leaf-mold in it. As a fertilizer rotten cow manure, cotton-seed meal and tankage are good. Use this in early spring and keep well mulched with peat moss or leaf-mold and keep the plants well watered during dry weather.

For scale and red spider use Malathion.

If your soil is not acid enough we suggest you use Aluminum Sulphate or Sulphur.

SHRUBS AND VINES FOR AMERICAN GARDENS

Donald Wyman. $9.95.

A brand new book and I find it the most informative and interesting one I have read in a long time. There is so much good in it I cannot begin to tell about it. If you want to send us $9.95 for one and if after getting it you are not fully satisfied send it back and we will return the $9.95.

Why not offer your customers more of the newer plants? You can make more profit than with the older varieties. Many new varieties are in this list.

A FASCINATING HOBBY

Growing Azaleas is a hobby which provides an ever increasing source of interest. There are so many species to be had and so many almost breathtaking new hybrids being produced, that one is amazed at the magnificent display that we may have with only a small space of ground and a few of the newer plants that are now being offered. If you want a stimulating (and profitable) hobby that grows more interesting, beautiful and valuable every year, then grow azaleas.

EDCO IRON

For experimental use in the control of chlorosis (lack of chlorophyl) in azaleas, gardenias, roses, citrus crops, etc.

Results to date have shown Edco Iron to be very effective in correcting chlorosis in the above crops. Chlorosis may be caused by the excess or deficiency of several major or minor nutrient elements in the plant besides iron, and it may be caused by an excess of water or its lack, but Edco Iron commonly seems to help correct the effect if not the cause of these several conditions.

Full directions for using with each lot.

Prices: 1 lb. $2.30: 10 or more lbs. at $2.00 per lb.

ALUMINUM PLANT TAGS

Very convenient to use. Lasts years. ¾ inch wide, 3½ inches long.

During the summer months we are pleased for visitors to see our nurseries but during the digging season from September to July we cannot give callers the attention we would like. During the main digging season, if a customer takes the time of a foreman, it can mean that in his absence several helpers are idle and orders promised for the next few days cannot be handled. Therefore, we urge you to send your orders in to us several days in advance so we may have them ready for you.

Many items in this catalog will undoubtedly be sold out before the season is over. We suggest you place your order as early as possible.

TELL US HOW TO SHIP, whether by express, motor truck, or railroad freight. If by motor truck or railroad freight, tell us the route or over which line you want delivery made. If you do not give this information we will use our own judgment as to route and methods to use. **It is mutually agreed that whether you name the route or leave it to our own selection, we will not in any way be responsible for time or conditions of delivery and our responsibility ceases upon our delivery to the transportation company.**

A FASCINATING HOBBY

Growing Azaleas is a hobby which provides an ever increasing source of interest. There are so many species to be had and so many almost breath-taking new hybrids being produced, that one is amazed at the magnificent display that we may have with only a small space of ground and a few of the newer plants that are now being offered. If you want a stimulating (and profitable) hobby that grows more interesting, beautiful and valuable every year, then grow azaleas.

EDCO IRON

For experimental use in the control of chlorosis (lack of chlorophyl) in azaleas, gardenias, roses, citrus crops, etc.

Results to date have shown Edco Iron to be very effective in correcting chlorosis in the above crops. Chlorosis may be caused by the excess or deficiency of several major or minor nutrient elements in the plant besides iron, and it may be caused by an excess of water or its lack, but Edco Iron commonly seems to help correct the effect if not the cause of these several conditions.

Full directions for using with each lot.

Prices: 1 lb. $2.30: 10 or more lbs. at $2.00 per lb.

ALUMINUM PLANT TAGS

Very convenient to use. Lasts years. ¾ inch wide, 3½ inches long.

Made of thin aluminum. Can be embossed with ordinary lead pencil just like writing on an ordinary wood label. Permits writing label right in field. 100 for $3.50, 500 for $15.00, 1,000 for $25.00 Postpaid.

This may save you a trip. Don't take a chance but contact us before coming or sending for a load unless your order has previously been received and acknowledged for a certain date.

Claims, if any, must be made immediately upon receipt of goods, and if just, made satisfactory, but in no case are we responsible for more than the purchase price of the stock in question. **We will not be responsible for failure to fill orders in full or for any damage or delay to stock after delivery to the transportation company.**

The demand for good holly is growing every year. Be prepared. Good holly is still scarce.

AUNT MARY'S SWEET CORN

The Sweet Corn Supreme

This is the most wonderful Sweet Corn we have ever grown. One grower describes it as "the best Sweet Corn in the world."

Has the most delicious flavor and keeps a long time before becoming too hard to use. In fact, usually requires artificial heat to cure it for seed purposes.

Aunt Mary's Corn, by its excellent quality, sweetness, and flavor makes a stronger appeal to the Corn-loving public than most any other variety and that appeal continues long after you are tired of other Sweet Corns.

Liberal size packets, 35c each; 3 for $1.00, postpaid.

$2.00 per pound, postpaid.
